PRODUCT FEATURES

**Completely transparent**
The world's first fully transparent, FDA-cleared and CE-marked mask optimized for maximum clarity and comfort: making connections more human and providing clearer communication.

**Full anti-fog, fluid resistant barrier**
Contains a full, anti-fog plastic barrier, which helps prevent particles or droplets from getting through, and meets the highest applicable ASTM standards in the industry (Level 3).

✅ FDA-CLEARED

The ClearMask™ Transparent Surgical Mask is medical grade, designated as a class II medical device by the US Food and Drug Administration (FDA).

- Intended for use in healthcare settings, such as operating rooms, or other medical procedures such as dental, isolation, and veterinary procedures during which a face mask is necessary to protect both the patient and healthcare personnel from transfer of body fluids, microorganisms, and particulate material.
- Not an N95 respirator; only N95 respirators have no gaps and a complete seal when fit-tested and properly worn.

✅ COVERED BY FDA COVID-19 MASK POLICY

The ClearMask™ Transparent Face Mask is covered under the FDA’s COVID-19 mask guidelines.

- Intended for use by consumers and healthcare professions.
- Available for use in hospitals and by healthcare providers without objection from the FDA, and may be used when FDA-cleared masks are unavailable. Per the FDA, use of these masks is not recommended in a surgical setting or where significant exposure to liquid bodily or other hazardous fluids may be expected; in a clinical setting where the infection risk level through inhalation exposure is high; or in the presence of a high intensity heat source or flammable gas.

✅ MEETS LEGAL REQUIREMENTS TO PROVIDE ACCOMMODATIONS

For specific populations, the U.S. Centers for Disease Control and Prevention (CDC) suggests transparent masks as an option. Per the U.S. Occupational Safety and Health Administration (OSHA), employers should provide face coverings to all workers at no cost, and must consider reasonable accommodations for those who require clear coverings.

Under Title II & Title III of the Americans with Disabilities Act (ADA) and Section 1557 of the Affordable Care Act (ACA) in the U.S., entities are required to provide effective accommodations upon request, including auxiliary aids. The ClearMask™ brand is an auxiliary aid.
